144th IPU Assembly

Nusa Dua, Indonesia
20-24 March 2022

17 March 2022

COVID-19 HEALTH INFORMATION NOTE

This Health Information Note has been prepared in consultation with the Indonesian health authorities and gives due consideration to the current public health circulars and latest situation regarding COVID-19 cases in the cities of Jakarta and Bali. It serves to ensure collective safety and the smooth running of the 144th IPU Assembly and its related meetings. Your compliance is expected for effective implementation of the health protocols.

As of 14 March 2022, it will no longer be necessary to quarantine upon arrival in Bali. Consequently, the Assembly bubble will not be implemented.

Pre-departure preparations

- Participants are required to present proof of insurance that covers all health care costs in the case of a confirmed COVID-19 case requiring hospitalization.
- Participants must register a valid COVID-19 vaccine certificate at <http://vaksinln.dto.kemkes.go.id/> prior to departure to Indonesia. Information on the vaccination, such as vaccination certificate with details of the holder, vaccines administered, the institution that performed the vaccination, date of complete vaccination (either a single or a double dose of a complete primary series depending on the vaccine platform), will be required as proof that complete vaccination had taken place at a minimum 14 days prior to arrival.
- Participants must perform a COVID-19 PCR test 48 hours prior to departure and present a negative test result, upon arrival at the international airport of Denpasar, Bali.
- Install **PeduliLindungi** tracing application¹ and register with the electronic **Health Alert Card (e-HAC)**. Upon verifying your vaccine certificate through <http://vaksinln.dto.kemkes.go.id/>, information regarding your vaccination history and COVID-19 test results will be accessible on the PeduliLindungi app.

Arriving in Indonesia

The regional quarantine policy in the capital city of Jakarta will remain in place throughout the Assembly period. Participants are therefore encouraged to take a direct flight to Bali whenever possible.

Participants who fly with a connecting flight via Jakarta must take a PCR test at Jakarta international airport. Allow a minimum connection time of 3 (three) hours between your flights for the PCR test sample to be processed. While waiting for the PCR test result, participants may remain in the dedicated airport holding room.

¹ Free Wi-Fi will be available at the international airports in Jakarta and Denpasar, as well as at the Assembly venue.

#IPU144

However, those with longer stopovers and who wish to stay at a hotel at their own expense may do so and wait for the result at one of the designated hotels before continuing their flight to Bali. The designated hotels include **Anara Airport Hotel, Swiss-Belhotel Airport Jakarta and FM7 Resort Hotel**. Transport to and from the designated hotels shall be provided by the host organizing committee and no private transport services are allowed for this purpose. No further PCR test is required when participants arrive in Bali.

Participants who arrive directly in Bali must take a PCR test at the international airport of Denpasar and wait for the result in the dedicated holding room before the host organizing committee transfer them to their hotel.

The cost of PCR tests upon arrival in either Jakarta or Bali shall be covered by the host parliament.

RULES AT THE ASSEMBLY VENUE AND SOCIAL EVENTS

- Throughout the entire event, **rapid antigen tests will be performed every day** on all delegates before entering the Assembly venue. Tests are available for free at the COVID-19 testing site, and results will be available within 5-10 minutes. The antigen test is valid for 24 hours.
- **Tests and test results are automatically added to the PeduliLindungi App** and will be sent to each delegate's mobile number, or by email if no mobile number is available. The results will also be uploaded to the chip in the delegate's Assembly ID badge.
- **Social distancing must be strictly observed in all meeting rooms during the Assembly.** When taking the floor, delegates are invited to do so from their seats.
- **It is mandatory to wear a face mask (covering nose and mouth)** at all times (only exceptions: when eating or drinking) on the Assembly premises, as well as on public transport and in stations and other enclosed public spaces.
- To avoid waiting times and allow a smooth start to the conferences, **participants are invited to take their first test on the day before their meetings start.** There will be a priority lane for Speakers of Parliament.
- If a **test result is positive**, the medical team will immediately take all necessary precautionary measures and ensure a prompt verification of the test. If the positive result is confirmed, those with mild symptoms will be isolated in one of the Assembly hotels, at their own expense, while delegates with moderate or severe symptoms will be admitted to a referral hospital to receive proper medical care at their own expense. A 10-day quarantine period is currently required after a positive test result.

ACCESSING THE ASSEMBLY VENUE AND COVID-19 TESTING SITE

After obtaining the assembly badge, proceed to the **COVID-19 testing site** on the grounds of the BICC, opposite the BICC building

- Register for the test, a test kit will be provided and then proceed towards an available testing booth (the IPU Secretariat has provided basic information from the online registration system to speed up the process).
- The testing procedure will last between 3 and 5 minutes and another 5-10 minutes is required until results are ready (waiting room available).
- There will be 20 testing stations including one **dedicated lane for Speakers of Parliament / parliamentary heads of delegation.**
- The dedicated waiting room will have a test result counter.
- Upon testing negative for the antigen test, the information will be uploaded to the chip on the ID badge, thus enabling the delegate to access the Assembly through the RFID (Radio Frequency Identification) system.

TESTING CENTRE FOR COVID-19: BALI INTERNATIONAL CONVENTION CENTRE, NUSA DUA

For registered participants only

The **testing centre** is located in the medical testing tent opposite the BICC's main entrance.

TESTING CENTRE OPENING HOURS:

18.03.2022	07:00-18:00
19.03.2022	07:00-18:00
20.03.2022	07:00-18:00
21.03.2022	07:00-18:00
22.03.2022	07:00-18:00
23.03.2022	07:00-18:00
24.03.2022	07:00-18:00

* We urgently call upon all members of delegations to **use the testing facilities on the day before their meetings start** to avoid bottlenecks and waiting time. The test is valid for 24 hours.

ALWAYS KEEP THESE 6 KEY POINTS IN MIND

Mask
(use covering nose, mouth, and chin)

Meters
(at least 1.5m between people)

Hands
(frequent hand washing)

Fewer contacts
and in a stable bubble

More ventilation,
outdoor activities,
and opened windows

I stay at home if I have symptoms or I have been diagnosed with COVID, if I am a close contact of a positive case, or awaiting for test results
