on

“Renovation of the Buildings of the Turkish Parliament and construction of a new kindergarten and day care centre”

Nusa Dua Session
March 2022

PRESIDENCY OF THE GRAND NATIONAL ASSEMBLY OF TURKEY

ACTIVITIES AND PROJECTS

JULY 15

- One of the most damaged places by the bombs dropped during the night of 15 July 2016 was the Grand National Assembly of Turkey. Millions of liras of material damage occurred in the Turkish Grand National Assembly.
- The damages that occurred in the Grand National Assembly of Turkey at the night of July 15 were repaired as a result of extensive, detailed and intensive maintenance and repair work.
- In order not to forget what happened at the night of July 15, the roof area of the Grand National Assembly of Turkey where the bomb was dropped was turned into a museum.
- That night, another bomb was dropped in the Parliament garden. The part of the garden was converted into an exhibition area. Moreover, the “July 15th Martyrs Monument” was built on the bombing site, in memory of the 15 July martyrs.
- The shelters were rearranged within the maintenance and repair work following the 15th of July.

2. MAINTENANCE AND REPAIR WORK OF GENERAL ASSEMBLY

- In order to adapt the technical infrastructure of the General Assembly to the current technological innovations, a very comprehensive maintenance and repair work was carried out in 2021 for the first time since 1997 in the General Assembly.

- All of the seats in the General Assembly; seats of deputies, lecterns, chairs and commissions have been dismantled and the technical infrastructure has been completely equipped with the latest technology.
- The voting and polling system has been completely renewed.
- Two giant LED screens were placed in the General Assembly.
- Audio and video tools related to the Parliament TV broadcast from the General Assembly have been rearranged to support 4K technology. Administration room and the system room were also renovated.
- The ceiling and walls of the General Assembly were painted with acoustic features.
- Maintenance has been done on the seats of the deputies, and charging units have been placed in their rows.
- The speaker's chair has been made hydraulic in order to improve the opportunities for disabled deputies.

3. 100th YEAR GARDEN RESTAURANT, TERRACE AND CAFETERIA

- The 100th Year Garden Restaurant was put into service during the Covid-19 and was used very effectively during the pandemic.
- Terrace Cafeteria was also put into service during the pandemic and was used effectively.

4. SECURITY BUILDING

- The previous gate of the Grand National Assembly of Turkey facing Security Street was renovated in accordance with the architecture of the Grand National Assembly of Turkey, because it lacked some physical facilities.

5. NURSERY OF TGNA

- Instead of the outdated nursery building of the Grand National Assembly of Turkey located outside the campus, a very modern and aesthetically qualified nursery building was built within the campus of the Grand National Assembly of Turkey.

6. ONGOING PROJECTS

- Florya Facility (Istanbul) is planned to be renovated.
- It is planned to remove the open parking space located at the entrance of the Turkish Grand National Assembly on Dikmen Street and replace it with a multi-story parking space.
